

The Art of Responsibility

coaching programme will significantly improve the performance of your senior managers.

The Art of responsibility is about everyone taking control and being responsible for the success of the business. This means everyone doing their job properly wasting less time on other people's problems freeing more time for business building. **What would you do with an extra 2 hours per day? We can give you this time back.**

Following the programme you will see

This is achieved as managers become effective coaches freeing more time to spend on the things that make a difference to you and to customers.

The Art of responsibility will

- Find out what people are good at
- Uncover who in your business cares enough
- Tell people what they really need to know
- Help you win and keep customers
- Improve the decisions made
- Show your team what success looks like

The culmination of the programme will be your team members practising their new found coaching skills with members at a similar level from another client company!
