Maintenance & Engineering Team Leader

Description

Our client, Anchor Magnets, is the UK's largest manufacturer and converter of flexible and permanent magnetic materials. They are a leader in the provision of magnetic and receptive materials and add value through design, manufacture and production at their Sheffield site. Founded in 1984, their specialist knowledge and industry leading technical expertise supports retailers, printers and users of magnetic materials in the UK and Europe. As an ISO accredited company for design and manufacture, their processes ensure a consistently high quality of product and service. They are looking for someone to lead a small team of technicians (2-3 people) and support production in ensuring machine reliability and availability, planning preventative maintenance activities.
