Senior Technical Manager

Description

Moulding the Future: Join Us as Our New Technical Manager

Rotational Moulding Group is a long-established leader in plastics manufacturing, a family run business with a passion for what we do! Operating from multiple sites in the North-West, we are on a journey of continuous improvement in all parts of our business, including enhancing our manufacturing processes with the implementation of automation. To that end, we are now seeking a Senior Technical Manager who can provide departmental leadership and drive technical innovation.
